

## **SOLAR FIRE DYNAMIC INTERPRETATIONS REPORT**

### **PROGRESSIONS: Progression Interpretations**

Astrologers use the term "Progressions" to describe a particular technique of moving planets forward in time. This technique is aptly named because it describes how a person progresses through their life. Progressions describe the different phases in our lives as well as our inner urges and how they affect our lives rather than dramatic outer events. However, our urges can significantly affect the way in which we react to circumstances and therefore our decisions. It is important that we go with the flow rather than fight against the tides of our lives. Therefore Progressions are likely to show us signposts in life's journey and consequently help us gain wisdom and understanding. Some astrologers believe that Progressions are signs from our soul or higher self; others place less emphasis. We suggest that you read on and see for yourself.

### **PROGRESSED MOON ENTERING PISCES (1st House)**

8 Oct 2009

You are reaching the end of a cycle in your life when the progressed Moon travels through the sign of Pisces. This has a subtle rather than dramatic influence on your life events. You gradually feel a need to slow down and reflect on the past. You ask questions, which may not have immediate answers. You feel a need to ponder on your own behaviour, past patterns, friendships and relationships, career moves and other areas of your life that have held importance. Answers and understanding come slowly rather than overnight. Inner reflection is more important than public success when the progressed Moon is in the sign of Pisces. Therefore this is a time when emotional and spiritual matters take precedence over material ones. If you need to retreat from society then now is the time to do so, as long as you can responsibly manage your time and commitments. Spiritual retreats, communing with nature and rejuvenating health retreats can be highly beneficial. You can also benefit from pursuing the artistic or creative side of your nature during this period. Soothing activities are important at this time. This is nature's way of asking that you slow down and make way for a new phase of your life. In the process you may need to make changes and close a few doors so that you can make room for the new ones to open when the Moon moves in to a new cycle in Aries.

Either way you have the drive to succeed. One of the risks of this phase is that you are tempted to go overboard in your efforts to achieve your objectives because you are keen to move forward regardless of the costs. Impatience may mar this period. Therefore you need to ensure that you pay closer attention to your aims. Patience and collaboration are needed, rather than competition. Save any competitive urges for a demanding sport or solo adventure rather than projects that require the co-operation of other people. Avoid rash decisions and stressors that trigger your temper and this can be a rewarding phase during which your motivation is strong and your achievements satisfying.

### **PROGRESSED MOON ENTERING 2ND HOUSE (2nd House)**

It's time to reflect on your personal values rather than living your life to please other people. As your self-esteem increases, you may also feel an urge to apply for a promotion, thereby receiving an increase in your income. It is possible that your increased sense of self worth also leads to changes in other areas of your life, such as decisions to improve your housing or personal relationships or change career. The sign of your progressed Moon will also show you the area of your life most likely to be affected by this new confidence and self-esteem! For instance if your progressed Moon is in a fire or air sign then you are more likely to actively seek new options. If your progressed Moon is in an earth or water sign then you are more likely to be steady in your approach.

### **PROGRESSED MOON ENTERING ARIES (2nd House)**

9 Oct 2011

You are ready to strike out on your own, believing in yourself and taking the initiative in your life. In the past few years you have been quietly reflecting on one period of your life, perhaps letting go of some long-held beliefs or long-term relationships. Now you are starting a new phase. You have become clearer about your own driving force and realise that it is time to take the focus off other people's needs and wishes and to concentrate on achieving your own goals. Perhaps you have been relying too heavily on others to help you fulfil your own life goals or perhaps previously you were content to enjoy a different way of life. Now you are looking for more independence. You may be able to elicit the help of others, however, you will be the leader. You are unlikely to want to live in someone else's shadow during this phase. Therefore you strike out in a forthright manner seeking the self-respect that comes from your own accomplishments. This is your time to make the most of your own skills and knowledge. Subconsciously you have a real drive for freedom and action. You need friends and family to support you during this time. Otherwise you may feel the need to strike out alone, leaving them in your wake. It is important that you are not neglectful of other people's

needs and wishes, however; it is even more important that you do not succumb to undue pressure from other people. This is your time to begin to fulfil your ambitions. Where you have relied on other people in the past then you now feel compelled to get your own life in order. This can involve any area of your life. For instance you may be motivated to start an exercise program, renovate your house, start a new relationship, begin a study course or launch a new business. Whatever your goals during this phase you have the willpower to successfully accomplish new feats.
